Recovered collection / terminology edition

300 recovered source pages

Prepared for review. Not published.

This source-faithful terminology edition updates the language name and publication identity while retaining mathematical expressions, source IDs, historical evidence and page graphics. It is not a fresh execution of the historical tests. Read the companion searchable library for current project sequencing and unresolved semantic relationships.

White papers are excluded. References to White paper identities remain historical citations. Original source hashes refer to the prior originals; revised output hashes are recorded separately.

Gold and Indigo: the original volumes were not recovered. Any new reconstruction is separately identified and must not be counted as those missing volumes.

Angel report for BP-ALG-001 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-001, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-002 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-002, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-003 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-003, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-004 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-004, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-005 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-005, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-006 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-006, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-007 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-007, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-008 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-008, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-009 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-009, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-010 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-010, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-011 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-011, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-012 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-012, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-013 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-013, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-014 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-014, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-015 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-015, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-016 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-016, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-017 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-017, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-018 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-018, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-019 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-019, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-020 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-020, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-021 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-021, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-022 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-022, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-023 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-023, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-024 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-024, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-025 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-025, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-026 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-026, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-027 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-027, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-028 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-028, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-029 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-029, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-030 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-030, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-031 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-031, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-032 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-032, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-033 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-033, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-034 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-034, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-035 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-035, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-036 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-036, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-037 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-037, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-038 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-038, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-039 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-039, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-040 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-040, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-041 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-041, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-042 | roles: GATE, SENTINEL, AUDITOR

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-042, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-043 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-043, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-044 | roles: GATE, SENTINEL, AUDITOR

For BP-ALG-078, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-079 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-079, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-080 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-080, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-081 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-081, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-082 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-082, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-083 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-083, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-084 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-084, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-085 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-085, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-086 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-086, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-087 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-087, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-088 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-088, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-089 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-089, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-090 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-090, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-091 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-091, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-092 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-092, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-093 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-093, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-094 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-094, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-095 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-095, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-096 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-096, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-097 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-097, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-098 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-098, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-099 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-099, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-100 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-100, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-101 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-101, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-102 | roles: GATE, SENTINEL, AUDITOR

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-103, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-104 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-104, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-105 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-105, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-106 | roles: GATE, SENTINEL, AUDITOR

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-118 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-118, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-119 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-119, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-120 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-120, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-121 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-121, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-122 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-122, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-123 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-123, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-124 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-124, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-125 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-125, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-126 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-126, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-127 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-127, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-128 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-128, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-129 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-129, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-130 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-130, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-131 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-131, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-132 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-132, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-133 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-133, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-134 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-134, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-135 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-135, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-136 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-136, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-137 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-137, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-138 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-138, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-139 | roles: GATE, SENTINEL, AUDITOR

- ANGEL APPROACH
- GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.
- COLLABORATING MANIFESTATIONS
- MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.
- EXAMPLE INTERACTION
- For BP-ALG-139, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.
- HARD BOUNDARY
- Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-140 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-140, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-141 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-141, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-142 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-142, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-143 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-143, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-144 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-144, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-145 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-145, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-146 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-146, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-147 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-147, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-148 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-148, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-149 | roles: GATE, SENTINEL, AUDITOR

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-ALG-157, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-ALG-158 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

For BP-FAM-007, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-FAM-008 | roles: GATE, METER, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; METER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-FAM-008, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-FAM-009 | roles: GATE, METER, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; METER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-FAM-009, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-FAM-010 | roles: GATE, METER, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; METER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-FAM-010, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-FAM-011 | roles: GATE, METER, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; METER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-FAM-011, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-FAM-012 | roles: GATE, METER, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; METER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-FAM-012, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-FAM-013 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-FAM-013, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-FAM-014 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-FAM-014, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-FAM-015 | roles: GATE, METER, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; METER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-FAM-015, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-FAM-016 | roles: GATE, METER, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; METER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-FAM-016, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-FAM-017 | roles: SENTINEL, HERALD, AUDITOR

ANGEL APPROACH

SENTINEL checks admission and purpose; HERALD checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-FAM-017, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-FAM-018 | roles: GATE, METER, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; METER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-FAM-018, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-FAM-019 | roles: GATE, METER, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; METER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-FAM-019, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-FAM-020 | roles: GATE, METER, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; METER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-FAM-020, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-FAM-021 | roles: GATE, METER, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; METER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-FAM-021, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-001 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-001, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-002 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-002, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-003 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-003, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-004 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-004, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-005 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-005, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-006 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-006, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-007 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-007, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-008 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-008, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-009 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-009, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-010 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-010, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-011 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-011, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-012 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-012, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-013 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-013, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-014 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-014, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-015 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-015, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-016 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-016, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-017 | roles: METER, LEDGER, AUDITOR

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-026, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-027 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-027, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-028 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-029, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-030 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-030, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-031 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-031, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-032 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-OBJ-032, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-OBJ-033 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

Angel report for BP-PROD-013 | roles: GATE, SENTINEL, AUDITOR

ANGEL APPROACH

GATE checks admission and purpose; SENTINEL checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-013, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-014 | roles: METER, LEDGER, AUDITOR

- ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.
- COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.
- EXAMPLE INTERACTION

For BP-PROD-014, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.
- HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-015 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-015, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-016 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-016, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-017 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-017, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-018 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-018, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-019 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-019, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-020 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-020, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-021 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-021, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-022 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-022, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-023 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-023, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-024 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-024, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-025 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-025, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-026 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-026, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-027 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-027, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-028 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-028, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-029 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-029, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-030 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-030, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-031 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-031, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-032 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-032, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-033 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-033, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-034 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-034, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-035 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-035, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-036 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-036, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.

Angel report for BP-PROD-037 | roles: METER, LEDGER, AUDITOR

ANGEL APPROACH

METER checks admission and purpose; LEDGER checks evidence, resource, telemetry, or recovery conditions; AUDITOR records the review and unresolved items.

COLLABORATING MANIFESTATIONS

MK for physics classification; JO for proof and receipts; Bellatrix for independent defense; Sister and EVE for prediction/variance evidence; M3 for bounded routing; Mermaid/Shiva for implications; MJ for final bounded decisions.

EXAMPLE INTERACTION

For BP-PROD-037, Angels observe the declared inputs and evidence ceiling, hold missing or unsafe predicates, preserve failure evidence, and never convert a successful calculation into authority.

HARD BOUNDARY

Angels may observe, hold, deny, isolate, report, and request correction within their domain. They may not self-authorize, mint resources, approve physical coordinates, price assets, or override MJ and the ethics manifest.
