MJOS Peaceful Solar-Assisted Rocket/Spacecraft Power and OS Profile

This volume contains exactly 5,000 additional candidate observation points generated from 25 profile elements x 20 technical lenses x 10 potential protection/review modes.

Each point preserves the exact solar design-freeze source digest, profile ID, Pink Paper, white paper, formula references, family path, evidence ceiling, risk flags, search prompt, and recommended next action.

A point may overlap other points, prior art, ordinary engineering practice, third-party rights, unprotectable subject matter, or insufficiently enabled concepts. Qualified counsel and accurate human inventorship review are required.

NOT IP APPROVAL - NO OWNERSHIP, INVENTORSHIP, PATENTABILITY, NOVELTY, OR FREEDOM-TO-OPERATE DETERMINATION
